

# Australia Visa Application Factsheet

*If you are an international student who wishes to progress to one of the NCUK partner universities in Australia, you will need to apply for a student visa. Below is an overview of what you will need to do to obtain a visa.*

*Throughout the factsheet, there are links which direct you to the government website on visa requirements which includes detailed information that is regularly updated. Please ensure that you use this website to thoroughly research your requirements prior to submitting a visa application.*

## Before you apply for your visa

To apply for your student visa, you will first need a **Confirmation of Enrolment (CoE)**. The CoE is issued by the university only once you have:

- been made an unconditional offer
- formally accepted your offer, which often requires signing a contract with the university
- paid your deposit, which is usually the first semester tutorial fees
- organised Overseas Student Health Cover (OSHC). Your university will contact you with a recommended provider. Please see [this link](#) on the Australian government website for more details.

Please note that it takes approximately 10 days from accepting an unconditional offer for a CoE to be issued. **Make sure to check your emails regularly in case the university contacts you. They may need more information from you to issue the CoE.**

## What documents do I need to submit with my visa application?

The Australian government immigration website has a [Document Checklist Tool](#) which you should use to determine which documents you will need. This asks you to input your country of origin, chosen university, and course of study to provide specifics on which documents are required. In general, students need some of the below documents, but there may be additions to this list depending on where you are traveling from, so it is essential to consult the checklist and refer to the information provided by your university.

## Submitting your application

Once you are sure that you have secured the necessary supporting documents, you will need to set up an account to apply online via the [ImmiAccount](#) application portal.

You will need to pay an application fee, which is approximately \$620.

All international students must apply for a single **Student Visa (subclass 500) visa**, irrespective of the programme you are planning to enrol onto. More information about this type of visa and application guidelines can be found on the [Australian Home Affairs website](#).

**Visa processing time vary depending on which country you are travelling from. Please see [here](#) for the Australian government guidance on how long it will take you to receive your visa. Since it can take several weeks for your visa to be processed, and application errors can cause further delays, make sure to start the process as early as possible.**

**If you need any advice, please contact [studentsupport@ncuk.ac.uk](mailto:studentsupport@ncuk.ac.uk) who will be more than happy to help!**

### Top Tip!

Even before your CoE has been issued, start to collect as many of the supporting documents as you can to avoid any delays later in the process
