

**Progression to The University of Manchester from
the International Foundation Year**

The University of Manchester receive thousands of applications from NCUK students each year. Due to the high demand, the university will only make offers to NCUK students who have been admitted onto the International Foundation Year (IFY), with a previous qualification deemed to be the equivalent, in standard, to AS Level.

Students must meet this prerequisite standard prior to starting the NCUK International Foundation Year and The University of Manchester will, unfortunately, not make offers to students who take the NCUK International Foundation Year at the same time as a high school qualification.

Below is a list of the qualifications which The University of Manchester have considered to be below the level of AS Level, and therefore will not be accepted for admission to The University of Manchester after completing the NCUK International Foundation Year:

- IGCSE
- O Level
- MYP - IB
- SPM – Malaysia
- Taiwan Senior School 2 / Year 11
- China Year 11
- Indonesia (SMA2)
- Thailand (MAW5)
- Vietnam (Upper Secondary Grad Diploma, year 11)
- India Year 11
- Sri Lankan O Level
- Singapore O Level
- Bruneian O Level

Students who hold any of the above qualifications can still study the NCUK International Foundation Year and progress to many other world-class universities in the UK, USA, Australia, New Zealand, and Canada.

If you have any further questions or would like to check the options available to you, please contact your nearest NCUK Study Centre.
